

*As a full-time single mom of two Autistic sons for almost nine years now, (Luca, 22 and Alessio, 15) my journey began the better part of 20 years ago!*

*I also have the privilege of working in the field for over three years now, with families like mine, through the Agape HEY Program (Healthy Early Years).*

*Parents of neuro-diverse children with special needs can attend a series of four workshops, unique to Laval, offered in English, free of charge!*

*The HEY Parent Workshops are offered virtually three times during the year (January., May, and October).*

*There is also the HEY Parent Support Group ❤️, which is also offered virtually, once per month. And finally, there is the HEY Playdate, held once a month on Saturday afternoons.*

*For all those interested in contacting me to learn more about my journey, my sons, who have expanded my horizons beyond anything I could have ever imagined for myself; as well as for more information concerning Agape's HEY Program, don't hesitate to reach out to me, through my contact information below. 🙌*
